

Maximize your pressure washer's effectiveness!

The Steel Eagle Surface Spinner uses force generated by your pressure washer to spin two or three spray nozzles at high speeds, which maximizes cleaning on flat surfaces. It produces consistent quality and cuts cleaning time by as much as 66%. It also decreases operator fatigue, so it virtually pays for itself in no time at all!

The detachable pistol and lance (available as an option) allow you to switch from Spinner operation to conventional for cleaning corners or vertical or hard-to-reach spots. A convenient lance rack holds the lance and pistol when not in use. Inset wheels with greaseable bearings allow cleaning edges and curbs while keeping cleaner on level surfaces. The front-mounted swivel caster has a Delrin bushing for easy handling and turning.

The swivel is long-lasting and dependable; and durable, lightweight aluminum construction means a long life.

One-Year Warranty.

Competitively Priced!

Available as an option:
STEEL EAGLE'S PATENTED HEIGHT ADJUSTMENT SYSTEM on the 30" Spinner keeps the deck at a constant $\frac{3}{4}$ " off the ground while raising or lowering spray-arm assembly from $\frac{3}{4}$ " to $2\frac{3}{4}$ " to increase or decrease impact — great for cleaning pressure-sensitive surfaces!

Also available:
Economically-priced
24" and 30"
Spinners
with
brass
unions!
